WEDNESDAY SEPTEMBER 13, 2023

12:00 PM EST

Unplanned Extubation in the Neonatal Intensive Care Unit

Nikki Davidson, MSN, BSN, CNL

In celebration of Neonatal Intensive Care Unit Nurses Week.

During her presentation, Nikki Davidson will discuss:

- 1) Unplanned Extubations Definition
- 2) Unplanned Extubations in the NICU
- 3) Clinical Outcomes
- 4) Financial Implications
- 5) Evidence-Based Approaches
- 6) Review of Technological Solutions

TUESDAY OCTOBER 24, 2023

12:00 PM EST

Non-invasive Respiratory Support

Raymond Nkwantabisa, MD MSc FAAP

In celebration of Respiratory Care Week.

During this webinar we will:

- Review pathophysiologic underpinnings for the different levels of respiratory support
- Discuss indications, benefits and limitations of the different levels of non-invasive support
- Review signs of inadequacy/failure of non-invasive respiratory support

Interpretation: Spanish, Portuguese

CE Accreditation: Respiratory Therapists (AARC), Nurses (CBN), Certified Registered Nurse Anesthetists (B Credit)

WEDNESDAY OCTOBER 25, 2023

2:00 PM EST

Unplanned Extubations in the NICU

Brian K. Walsh PhD, RRT, RRT-NPS, RRT-ACCS, RPFT, FAARC

In celebration of Respiratory Care Week.

During this presentation, Dr. Walsh will:

- Define Unplanned Extubations
- Discuss Unplanned Extubations in the NICU
- Describe Clinical Outcomes
- Go over Financial Implications
- Talk about Evidence-Based Approaches
- Review of Technological Solutions

Interpretation: Spanish, Portuguese

CE Accreditation: Respiratory Therapists (AARC), Nurses (CBN), Certified Registered Nurse Anesthetists (B Credit)

THURSDAY OCTOBER 26, 2023

12:00 PM EST

Proportional modes: When and How

Irene Telias, MD

In celebration of Respiratory Care Week.

Dr. Telias will introduce the concept of proportional modes of ventilation. Proportional modes of ventilation work by amplifying the effort of the patient's respiratory muscle activity, providing the necessary support to improve the imbalance between capacity and demand and to reach the patient's ventilation goal at the same time.
